To whom this may concern,

I hereby would like to provide an insight of the work that Stacy Alley created for the showcase of Den Danske Skenekunstschole in Fredericia in Denmark. As the newly installed Artistic Leader of Fredericia Musical Teater, I had the privilege to have the Showcase of Stacey as my first production. I was fortunate enough to attend as well the rehearsals as the performances in the theater.

During that I the great sense of detail and the everlasting need for perfection within the work of Stacy. As a foreigner myself in Denmark I know the difficulties with language barriers and cultural differences. Nevertheless Stacy spoke the international language of Musical Theater and managed to create a version of The Wild Party which was exciting, energetic and besides all that Danish too! The students have gotten a sublime opportunity by working with Stacy as their director for their graduation piece and I will honestly claim that they will look back at this with pride and longing!

Warm regards,
