

I wanted to tell you once more how much my students loved your production of 42nd Street! I so appreciate you letting us attend your final dress rehearsal. Because we are grant funded, it can be quite a challenge to provide our students with cultural events and opportunities so we are very grateful to have campus partners like you. Our student always particularly enjoy the UA Department of Theatre and Dance programs; therefore, I hope you don't mind if I call on you in the future. Thank you again for your generosity and support of our program.
